Education

RIMT University — Mandi Gobindgarh, Punjab
Bachelor of Technology in Computer Science and Engineering; CGPA: 7.6 — *Aug. 2023 – May 2027*

Experience

Institutional Training in MERN Stack — June 2025 – Present
RIMT University — *Mandi Gobindgarh, Punjab*

- Built a full-stack website for a restaurant using React, Node.js, Express.js, and MongoDB, with [menu display / online ordering / table reservations]
- Developed [REST API endpoints / admin panel / contact or booking form] to [manage menu items / handle customer orders / store reservations] in MongoDB

Projects

Linux Hub | *Next.js 16, React 19, Tailwind CSS v4, NextAuth.js* | GitHub | Live

- Built a full-stack donation platform for open-source Linux maintainers using Next.js 16 (App Router), React 19, and Tailwind CSS v4
- Implemented GitHub OAuth with NextAuth.js and server-side rendered profile pages showing repositories, follower stats, and a supporter leaderboard
- Integrated Razorpay payments with preset and custom donation amounts, plus API key management in a user dashboard

Personal Password Manager | *React 19, Express.js 5, MongoDB, Vite* | GitHub | Live

- Developed a full-stack password manager with React 19 (Vite), Express.js 5, and MongoDB, with full CRUD through a RESTful API (GET, POST, PUT, DELETE), upgraded from an earlier localStorage version
- Implemented optimistic UI updates with automatic backend re-sync to keep client and database state consistent
- Built a modular component architecture with form validation and inline edit/delete actions, using CORS and dotenv for configuration

CodeRoom: Collaborative Coding Classroom | *React, TypeScript, Node.js, Socket.IO, MongoDB* | GitHub | Live

- Built a real-time classroom platform where students join rooms via invite links to chat, share code windows, and debug together
- Implemented a permission system (view / edit / collaborate) enforced server-side on every socket event

Developer Portfolio | *React (Vite), Tailwind CSS, Express.js, MongoDB* | GitHub | Live

- Built a full-stack portfolio with a terminal-style UI (React, Tailwind CSS) and an Express/MongoDB API for contact form submissions
- Implemented an admin panel with login-gated access for viewing submitted messages

Technical Skills

Languages: TypeScript, JavaScript, C/C++, Python, Java, HTML/CSS
Frameworks: React, Next.js, Node.js, Express.js, Tailwind CSS
Databases & Caching: MongoDB, Mongoose, PostgreSQL, Redis
Backend: REST APIs, JWT/OAuth, Rate Limiting, Caching, WebSockets, Payment Integration
Tools: Git, Docker, Linux, Postman, VS Code, Neovim, Claude Code
Problem Solving: DSA in C++ – arrays, hashing, sorting, prefix sums

Achievements

Top 30% of 2,989 participants – OpenAI Codex Hackathon, organized with NamasteDev (Aug 2026)

Top 30 Finalist – ROBOMAN AI 2026 / Next Quantum 3.0 Vibe Coding Hackathon, Dept. of CSE, Gulzar Group of Institutions (Feb 2026)

Cleared all evaluation levels – Meta PyTorch OpenEnv Hackathon x Scaler School of Technology; submitted an AI-assisted RAG solution on Hugging Face Spaces (2026)
